EXPERIENCE

Unified Mentor, Gurgaon — *Full Stack Development Intern*

October 2024 - December 2024

Developed Various basic projects like Calculator, Music Player, Weather App & a Personal Portfolio Website using HTML, CSS & JavaScript.

EDUCATION

Jawaharlal Nehru Technological University, Hyderabad — Bachelor's of *Computer Science & Engineering*

November 2022 - November 2026

working on computers and various Data Structures Algorithms at the compiler level with Procedural language like C and Object Oriented Programming languages like Java , Python & JavaScript.

PROJECTS

Weather App — *HTML,CSS & JavaScript*

This responsive web application fetches data from OpenWeather with an API and produces an animated output of the current weather parameters of the city entered.

Calculator App — *HTML,CSS & JavaScript*

A Clone Application of IOS Calculator app that performs calculations with the BODMAS order.

Music Player App — *HTML,CSS & JavaScript*

This app was made by leveraging the Music class/In-Built library of javascript that allows us to dynamically manipulate and play audio files.
